

# From setup to pilot in 14 days

Live in two weeks. Proven in sixty days.

**1** WEEK 1

## Align

Confirm the site and the outcomes that matter, name your two leads, and agree the risk escalation protocol.

**2** WEEK 2

## Configure

We configure the platform to your workflow, embed your chosen measures, set up access and brief your clinicians.

**3** DAY 14

## Go live

Clinicians start using Innowell, with real-time dashboards from day one. The 60-day pilot begins.

**60**

DAY PILOT

### INCLUDED FROM DAY ONE

Your measures embedded · Suicidal Thought and Behaviour escalation workflow · Real-time PMHC MDS-ready dashboards

#### FROM YOU

A pilot lead and a site clinical lead.

#### TIMELINE

Two weeks to go live, then a 60-day pilot.

#### INVESTMENT

**\$50** per clinician each month.  
No consumer cost.

#### DAY 60 REVIEW

We review together against the metrics you set.
